

ILION HQ Head Quarters

The power of central control

INTRODUCTION

ILION Head Quarters, is the central product and store administration module.

Multi-language, multi-currency and multi-rate. Multiple user access after validation, enabling the definition of access to functionality according to user profile.

ILION Head Quarter will help you to add and categorise products and manage (registrations, cancellations, changes) stores, sales staff, alteration personnel and rates..

ADVANTAGES

- **Saving:** eliminating the need for printed documents and the use of printers to distribute the company's day-to-day information.
- **Full central control**
- **Maximum interoperability** with ILION POS sales terminals
- **Real-time data** from all stores
- **Flexible design** for connection to any ERP
- **Automatic notifications:** mail, fax, text messages...

FEATURES

- ↳ **Configuration and Master Files:**
 - ↳ **Product management** – Classification by type, family, group, model, reference and SKU
 - ↳ **Store management** – Sales persons assigned, types of currency, dataphones, means of payment, associated accounts, picture gallery
 - ↳ **Personnel management** – Type of employee, weekly hours, commissions...
 - ↳ **Customer management** - Classification of customers, purchasing log, credit log.
 - ↳ **Rate management** - Management of multiple rates based on policy areas, seasonal and sales rates, international rates, management of discounts and special prices, ERP rates, multi-currency, list of child rates, so when a parent rate is altered, the child rates are also automatically changed.

- ↳ **Area-based control and supervision**
 - ↳ **Policy-related** – Rates, special prices
 - ↳ **Commercial** – Commissions, sales
 - ↳ **Logistic:** Dispatch, movement, orders

- ↳ **Personalised report system** – flexible system for creating reports of all kinds with central data.

- ↳ **HelpDesk** - integrated Help Desk system to provide assistance to stores. System based on instant messaging, chat.

- ↳ **Incident system** – all incidents both at headquarters and stores are centralised and can be handled from this system. Several incident and operative levels.

- ↳ **Connection with ERP and external systems**- possibility of exporting data to ERPs and other external systems (accounting, production, etc.).
