

## Heimdal iStore

### Your online store

#### INTRODUCTION

**Heimdal iStore** is a solution for launching an online store, as a new point of sale integrable with the store management system.

#### FEATURES

**Heimdal iStore** facilitates the entry of your business to a new channel of distribution, exclusive and with personalized design.

Failure to opt for an integrated management, a web management can be available in the central system which allows to control all the web; from product management, campaigns, customers, orders, warehouse management, payment methods, etc.

This solution allows to reduce delivery times and keep track of traceability of merchandise when integrated with H. Easy Ship or a third system of distribution.
